**IMPORTANT ERRATA NOTICE: DOSAGE ERROR
IN KLIEGMAN: NELSON'S TEXTBOOK OF PEDIATRICS, 19e
INTERNATIONAL EDITION**

Dear Valued Customer:

Thank you for your purchase of **Kliegman: Nelson's Textbook of Pediatrics, INTERNATIONAL EDITION, 19e**. The ISBN for this title is 978-0-8089-2420-3. Due to an editorial error in the first printing of this edition, there is an error in a drug administration recommendation.

The error is located on page 1236, starting on the 3rd line of the right column (Chapter 295: Cysticercosis). The recommendation to start corticosteroids on the third day of albendazole is **incorrect**, albendazole should instead be administered **concurrently or 3 days after** corticosteroids have been started.

The correct drug recommendation should read:

"Patients should be medicated with prednisolone 2 mg/kg/day or 0.15 mg/kg/day oral dexamethasone, either concurrent with albendazole, or starting albendazole on the third day of corticosteroids."

The enclosed sticker covers complete text column on page 1236. Please make a permanent notation in your book or affix, so that this correction is properly communicated to all those who use the book for reference. We are making this correction in the books we have in stock at Elsevier and sending you the stickers to correct your copies.

You are free to order a supply of stickers for your customers who may have purchased this textbook. To do so, call Elsevier's Amman office +962 6 533 3321 ext. 209 and ask for Mona Sarraj for copies of stickers for customers.

We regret any inconvenience this may have caused you or your customers. Thank you again for your business.

Sincerely,

Ishaq Resheq
